

## Login

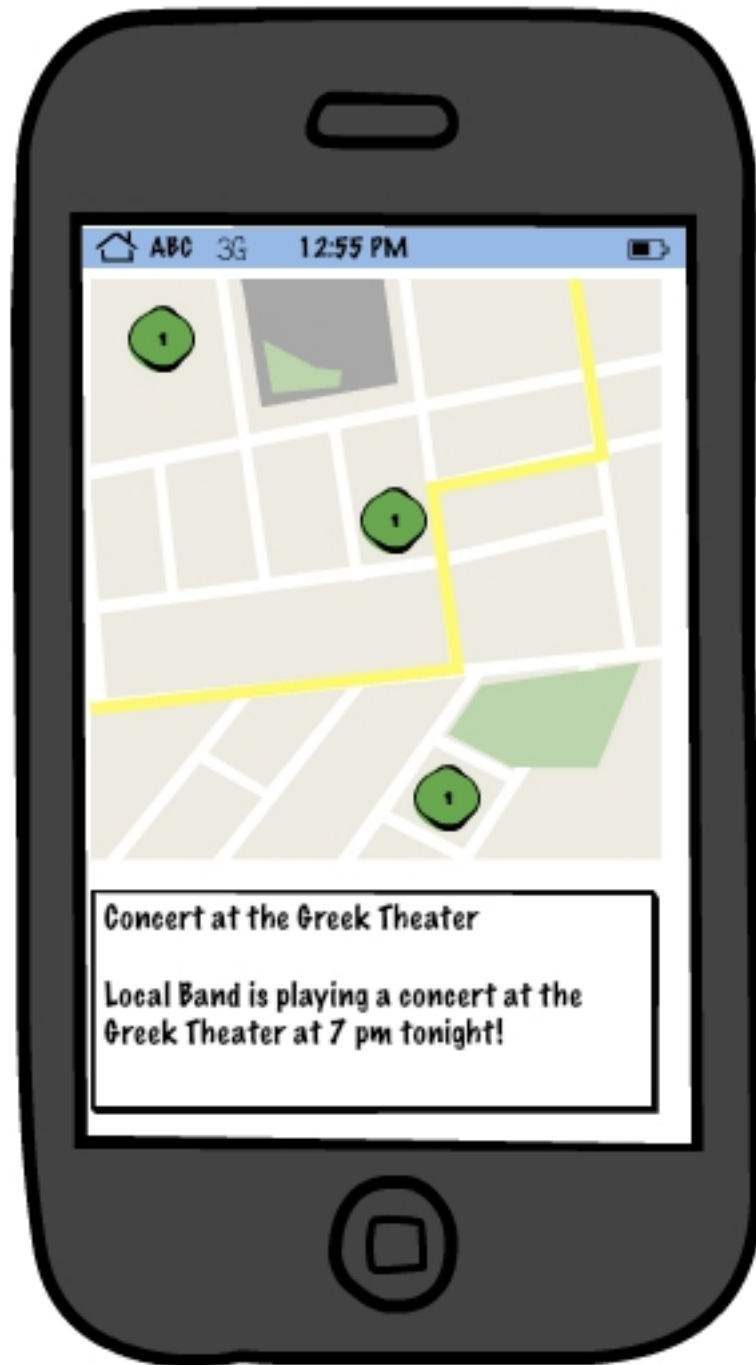

The local screen, group screen or bulletin board can serve as the initial screen upon log in, potentially even giving the user the option of which they'd prefer

## Bulletin Board

## Local Screen

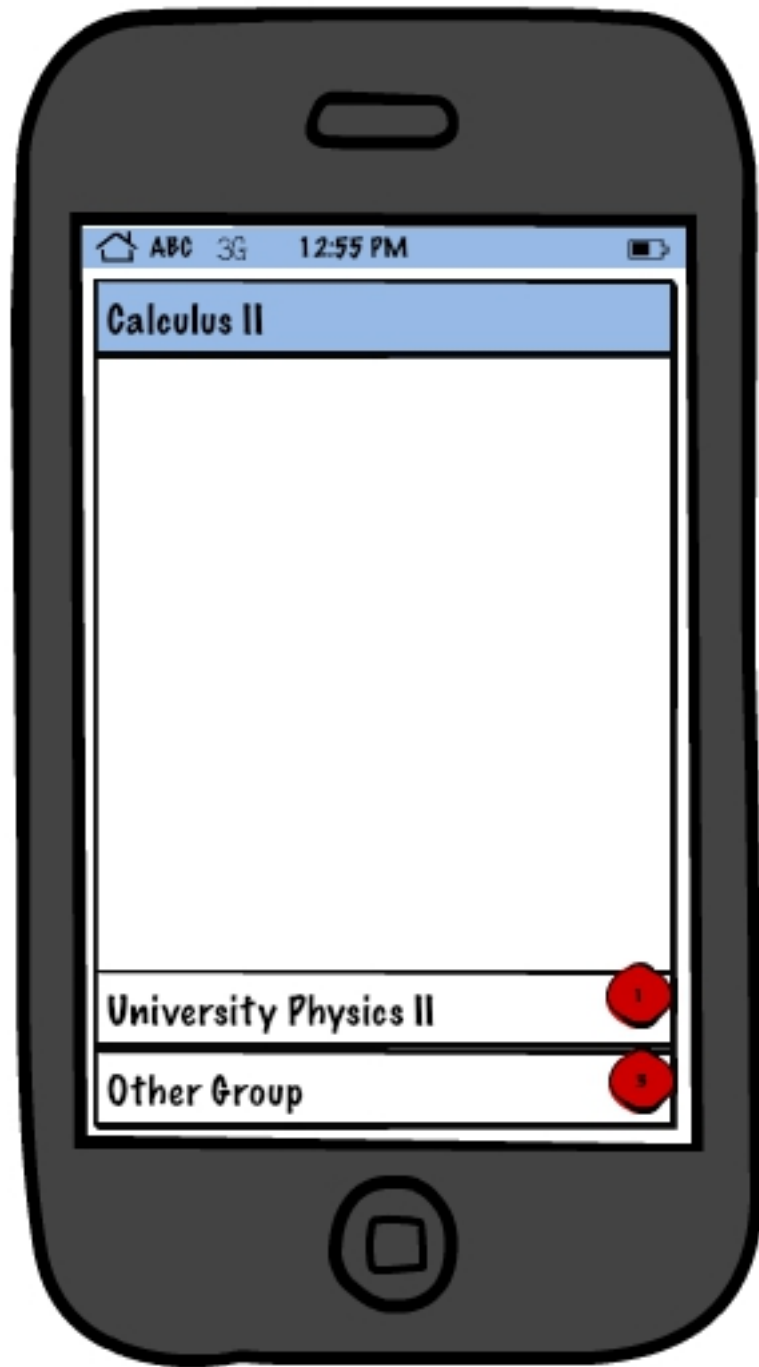

### Concert at the Greek Theater

Local Band is playing a concert at the Greek Theater at 7 pm tonight!

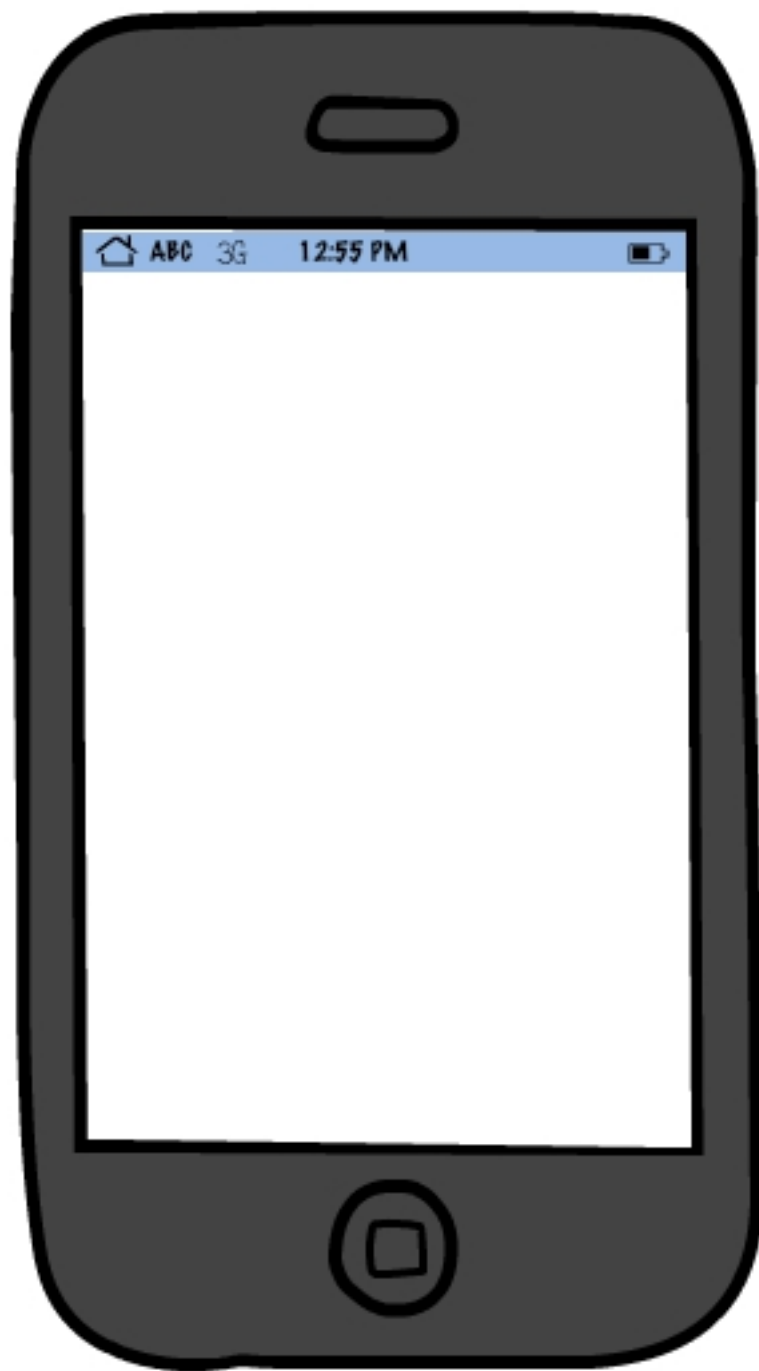

Text at the bottom indicates that one of the pins has been selected, provides a preview that can be clicked.

## My Groups

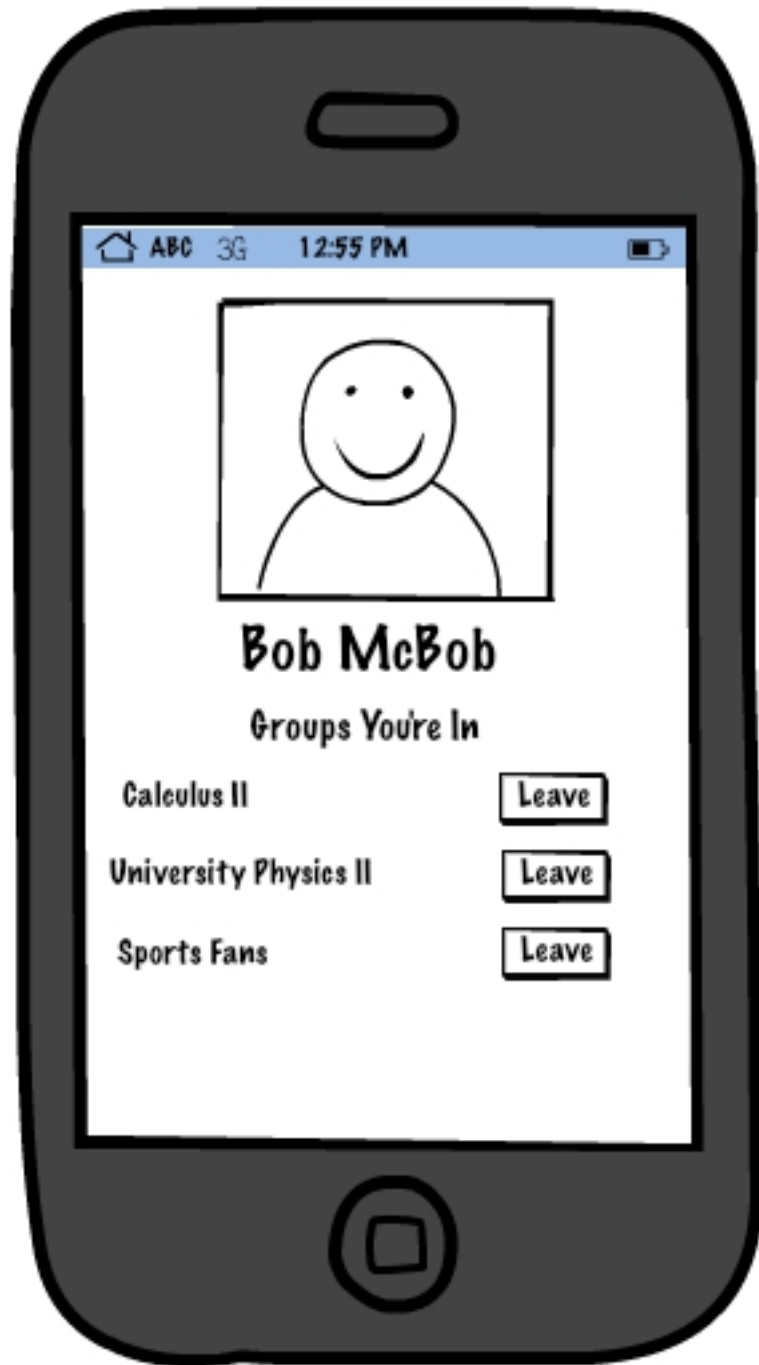

The notifications aren't necessary, just thought I'd leave them in.

## Thread Specific Discussion

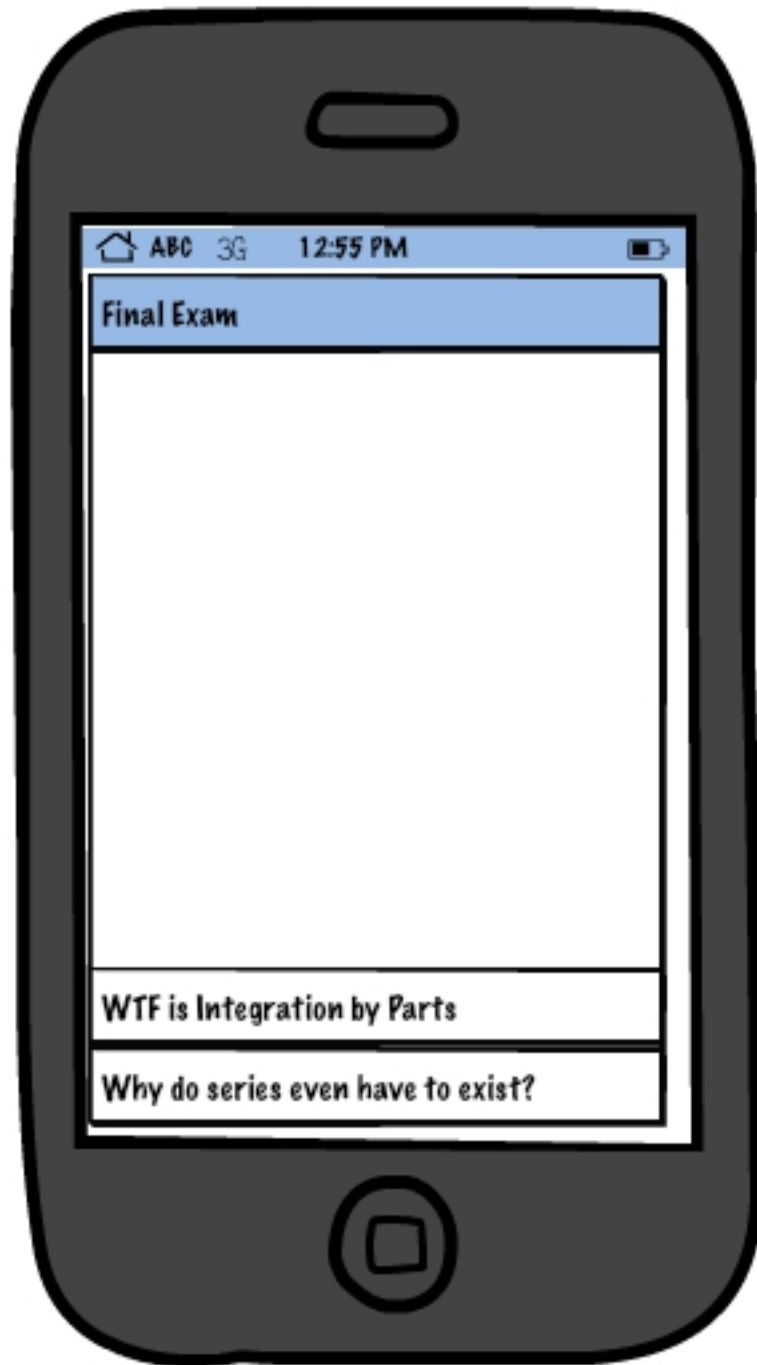

When a user selects a specific conversation from any of the previous screens, they are taken to this page, where they can browse the whole conversation.
